

CANNOT GAG BEATTY

He Will Not Be Controlled by Republican Politicians.

UNIT RULE PLAN BEATEN

RENEWED EFFORTS TO REJECT CHIEF DEVINE'S APPOINTMENTS.

It was Dr. Beatty who spoiled the attempt of the Republican politicians to cause to be adopted and enforced the unit rule among the nine Republican councilmen at the caucus held at the joint building on Saturday evening. The efforts of the city committee of the party to gain the councilman from the fifth will not be successful.

Dr. Beatty was indignant at the information that such a rule had been agreed upon. He said with considerable emphasis that the councilman had not thus stultified himself, and that he had not said that he would submit his opinion to a majority of the nine Republican councilmen. When asked if it were true that he had agreed to a unit rule he said:

"It is not true. I did not agree to anything of the kind. The caucus, it would be utterly absurd to think of such a thing. I do not believe that a few politicians should control the council. Such a method would give the control of the council to five men. That number would be a majority of the Republican councilmen, and they could then manage everything of importance."

Caucus Idea Good One.—The idea of holding caucuses among the nine Republican members on important measures is a good one, for it will afford councilmen a chance to study matters that are to be considered. But to say that a majority of the nine can bind all, no matter how great their differences of opinion, is ridiculous. I shall be tied up in no such way."

As a matter of fact, the city councilmen and the Republican councilmen did not pass a unit rule resolution. Councilman Beatty offered such a resolution, but it was not passed. Two or three councilmen who were there said yesterday that they would vote in the next session of the council. The resolution was amended until there was nothing left of it. The only agreement reached, and that was only in a half-hearted way, was for the councilmen to meet once each week in caucus to consider matters that will come up in the next session of the council.

Want Democrats Rejected.—But the city committee will make another effort to have the councilmen meet this week in order to throw out the appointments of two Democrats to places in the fire department and Chief Devine. At least it was the intention of the last caucus to meet again. The politicians who were quite excited over the fact that two Democrats may go into the fire department. They have done more fighting to have the councilmen meet than they have to win Republican victory.

Thus far the independent position of Dr. Beatty and Councilman Cottrell has been the partisan scheme. They have been by these caucuses to win over Beatty and Cottrell. So far the efforts have been dismal failures. It is not likely that the appointments made by Chief Devine will come before the next meeting of the council, because they will be withheld by the fire committee until all efforts to convince Beatty and Cottrell have been exhausted.

WILL BE NO CELEBRATION.

Fourth of July Will Be Observed Quietly in Salt Lake.

There will be no general or public celebration of the Fourth of July. The eagle may seem as loud as he wants to, but he will do it privately. Many of the smaller towns of the state are giving celebrations, but Salt Lake will do nothing of the kind.

Probably many persons will go to Saltair, Laguna, the Salt Palace and Calder's park, where they can swim in the water, lay out under the shade of the overhanging trees or otherwise enjoy themselves. There will, on account of the fact that no public celebration is to be given, be many more persons than usual at the resorts.

The Democratic convention at Kansas City, which will nominate Bryan for president, will keep some at home to read the bulletins. The Herald will have many on the subject, and they will be posted up where everyone can see them.

CLOSE COLLECTIONS.

City Treasurer Establishes a New Record on Water Taxes.

City Treasurer Morris ascertained from his records yesterday that he had collected all but about \$100 of the year's water rate assessments, which amounted to \$88,041.11, less \$5,966.52 in abatements for erroneous charges. Of the uncollected sum all will be collected yet, since the delinquents will have to pay up before the water is turned on again. The treasurer has a right to feel proud of this splendid record of his, for a few years back the delinquent water taxes, which were a loss to the city, amounted to thousands of dollars annually.

The water rate collections for the last fiscal year were not all cash, \$15,697.83 being for water scrip redeemed, leaving about \$72,343 of this stuff outstanding. The extra bookkeeping required for this feature of the city's finances and the fact that the public funds really pay for the cost of making extensions of water pipe laterals, have about forced the conclusion upon Treasurer Morris that it is a piece of folly to continue the issue of water scrip, redeemable in payment of water taxes, to persons who advance the cost of pipe extensions.

ARMED WITH A RAZOR.

George Burton Starts on Warpath and Winds Up in Jail.

George Burton, who was laboring under an over load of liquor, staggered into the loan shoe of S. Salmonsens on Sunday South street last night and raised a racket.

Mr. Salmonsens asked him to leave, which he started to do, but as he reached the door he stopped and began throwing things on the shop and out on the street. Salmonsens started after him, but Burton was too quick for him. He seized the former by the collar, and then grabbed him by the throat and by rapidly fanning him in Burton's face managed to keep him at arm's length until Officer Smith arrived and took him to the station.

The prisoner went meekly enough to the police station, but when he was tried to search him he strenuously objected and made a regular fight. The officer grabbed him and for a few minutes a lively struggle was indulged in before the prisoner could be subdued.

A search revealed an ugly-looking razor in Burton's back pocket. He was locked up on a charge of assault and battery.

MATCHLESS SALT LAKE CITY'S NEW HOTEL

Don Porter's conduct of hotels is not regulated by cost, believing anything worth doing is worth doing well. There is no better equipped hotel anywhere than "The Keyway." The travelers' appreciation of such intelligent and liberal provision has resulted in a present pronounced and brilliant success.

LOCAL BRIEFS.

MASS MEETING AT SANDY.—There will be a mass meeting at Sandy tonight to nominate two school trustees for one and two-year terms.

ANOTHER NEW VOTER.—Anthony E. Carlsson, a native of Denmark, and a resident of Salt Lake, was yesterday admitted to citizenship by Judge Hiles.

PETITION IN BANKRUPTCY.—Thomas Matthews, farmer and horse trader of this county, filed a petition in bankruptcy yesterday in the federal court. He gives his liabilities at \$76,288 and assets \$80, all exempt from execution.

MAY MEET THIS WEEK.—The Republican primaries for the judicial election have not yet been set. The judicial district committee, of which George W. Meyer is the chairman, will likely meet this week and select a date.

BOY THREW ROCKS.—Mrs. Harris filed a complaint before Judge Timmon yesterday, charging Willie Smith with disturbing the peace. Mrs. Harris, who lives at 12 West Second South, charges Willie with creating a disturbance by throwing rocks and other missiles at her house.

MR. BRIXEN'S FUNERAL.—The funeral of Andrew C. Brixen will be held in the Twentieth ward meeting hall, between 10 and 11 o'clock tomorrow morning. Those of his friends who desire to view the remains will be asked to do so between the hours of 4 and 9 o'clock at his late residence.

ADMITTED TO PRACTICE.—The supreme court yesterday admitted John W. Hiles, of the bar of the supreme court of New York, Frederick J. Holton of Brigham City, and F. Dewey Richards of San Francisco, but later of Salt Lake, to practice before the bar of the high court of this state.

RUNNING THE GAUNTLET.—Five candidates for license to practice medicine and six to practice the profession of obstetrics are undergoing examinations before the state board of medical examiners in this city. This is the regular quarterly examination, and the result will be known this evening.

SUB-STATIONS OPENED.—The four sub-stations of the postoffice department were thrown open yesterday and citizens found them very convenient in the various quarters of the city. The stations were well patronized and the first day's business indicates that they will be very popular as soon as their existence is generally known.

LET THE BOY GO.—Nathan Wik, who was arrested by George L. Nye for stealing a newspaper Sunday morning, was discharged by Judge Timmon yesterday afternoon. Mr. Nye filed no complaint against Wik, and the judge allowed him to go with the warning that he should not repeat his offense.

HAWAIIAN'S ESTATE.—In the chancery branch of the district court yesterday Judge Kakaia offered for sale the real estate of the estate of her deceased husband, Makape Kakaia, who died in the Hawaiian Islands. The estate included a large amount of property to which the widow and her children were entitled. The sale of the Hawaiian Islands was the first of the Hawaiian Islands.

BIDS FOR L. D. S. COLLEGE.—Bids have been called for the excavating work to be done by the L. D. S. college building. The institution is to move from the Templeton building at once, making room for the new building. It is hoped that the new building will be completed before the opening of the school in the fall.

SAVES THEY BEAT HIM.—A warrant of arrest was issued yesterday for Hugh McKelvey and George Condie on a charge of beating a man. The man was filed by Israel Daner. Daner is the man who called the police to 42 East Second South, where he alleged that two men had tried to beat him up. He says that McKelvey and Condie are the men who beat him up.

BIG HAIL OF DRUNKS.—Patrolman Andrew Smith broke the record yesterday for the number of drunkards arrested. He arrested 12 drunkards in the space of less than an hour. The drunkards were taken to the city hall, single-handed, five drunkards in single order in the space of less than an hour.

CITY PAY ROLL TODAY.—Inasmuch as the city government got a hustle in the deal and prepared the regular pay roll, it is expected that the Treasurer Morris will this morning pay off the salaries of the city employees. So they can have spending money for the Fourth. The pay rolls will amount to about \$50,000.

REVIEW NATIONAL GUARD.—Companies A, B and C of the national guard reviewed by Brigadier General Cannon and Adjutant General Burton. They were drilled on a short notice to see how quick they could prepare to come on parade. About seventy-five men turned out. They were marched to the hill, where, under the direction of Colonel Wells, they drilled through several evolutions and maneuvers for more than an hour. Held's band accompanied the regiment and furnished the music.

STATE BONDS CONVERTED.—Treasurer Chipman yesterday received from the state of Utah \$100,000 of the state's old issue of 5 per cent bonds and \$200,000 worth from the Desert Land Bonds. The bonds were taken up by the new issue of 5 per cent bonds. The old bonds were converted into the new bonds at a 100 per cent rate.

DEATH OF LITTLE CHILD.—The sympathy of many friends will go out to Mr. and Mrs. Joseph Swenson of the Twentieth ward, where the death of their little daughter Lucille, which occurred yesterday from cholera infantum. The child was about 13 months old, and one of two born Aug. 13 last year, and the other born Aug. 13 last year, and the other born Aug. 13 last year.

DEATH OF LITTLE CHILD.—The sympathy of many friends will go out to Mr. and Mrs. Joseph Swenson of the Twentieth ward, where the death of their little daughter Lucille, which occurred yesterday from cholera infantum. The child was about 13 months old, and one of two born Aug. 13 last year, and the other born Aug. 13 last year, and the other born Aug. 13 last year.

Utah Coal.—Try the new Clear Creek coal. Lump, nut and slack. D. J. SHARP, Agent, 72 South Main. Telephone 423.

Utah Commercial and Savings Bank.—General banking business, interest paid on savings deposits. W. Armstrong, president; J. E. Calce, cashier.

An Attractive Lot of Lion Coffee Premiums in Godde-Pitts Drug Co.'s Window.—We frequently hear the claim, "something is given for nothing," but it is not often seen an actual demonstration of the principle, like the display of Lion Coffee premiums now on exhibition in Godde-Pitts Drug Co.'s window.

Here are many valuable articles, all given free for the lion-heads, cut from Lion Coffee wrappers. These are not cheap articles, but comprise clocks, umbrellas, watches, gold rings and jewelry, besides many things useful and ornamental to the household, or will be enjoyed by the children. Lion Coffee fully deserves the popularity which it has gained, because of its superior strength and flavor.

\$10 Reward.—Will be paid to the party furnishing information which will lead to the arrest and conviction of any one destroying the electric street cars or other property of the city.

Cunningham Company.—Have moved to their new store, 48 and 50 Main and 45 to 47 Richards street.

WHERE TO GO.—July 3d, 4th, 5th. Visit the cool Provo canyon resorts; Parley's canyon by rail; Heber and Hot Pits; the Scenic Circle tour via Park City, Hot Pits and Provo canyon; Brigham's via Park City, Fish Creek near Scofield; Diamond Creek near Castella Springs; Ogden canyon or the many other resorts on the line of the Rio Grande Western railway. Half rates on July 3d and 4th. Call at Ticket office, No. 103 W. 2nd South. Do not block corner, for hours and information.

FURNISHED ROOMS.—FOR GENTLEMEN in modern house, electric light, furnace and porcelain bath. 65 South Fifth East.

FURNISHED ROOM.—with bath, for gentlemen; close in; references. A 333, Herald.

FURNISHED ROOMS.—at 13 E. 1st So.

TALK OF MORMONISM

Subject Is Discussed at the Sunday School Convention.

MR. WEIR'S SUGGESTION

SHOULD DIRECT ATTENTION TO UNCONVERTED GENTILES.

The feature of yesterday's sessions of the Sunday school rally of the state association at the Y. M. C. A. was a spirited discussion of the influence of Mormonism upon the denominational work among the young. The subject was brought up by the Rev. E. S. Lewis, D. D., of Columbus, O., one of the visiting clergymen. He asked as to the influence of what he called "this alien faith" upon the work and several undertook to give the correct answer.

The Rev. Hugh McCreary was the first to attempt to shed some light upon the subject. He said that he could not explain the influence, but could illustrate it by a story. The story, summed up, was that one of the denominational Sunday school teachers asked one of her pupils who was the only perfect man that ever lived, and the answer was "Jesus Christ." The teacher then asked the pupil if he knew of any other perfect men, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect women, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect children, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect things, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect places, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect times, and the answer was "No." The teacher then asked the pupil if he knew of any other perfect people, and the answer was "No." The
